In Decision (D.) 03-07-028, as modified by D.03-08-076, D.04-11-014, and D.04-12-059, the Commission imposed a Cost Responsibility Surcharge (CRS) on Municipal Departing Load (MDL) within the service territories of Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas and Electric Company but deferred issues relating to the billing and collection of the MDL CRS for further consideration. On December 23, 2004, the assigned Administrative Law Judge issued a ruling ordering a technical workshop to be held on January 31, 2005 for purposes of identifying positions and seeking consensus on process and procedures for billing and collection of MDL CRS. At the workshop, participants will have the opportunity to identify positions, respond to opposing proposals, and propose remedies or approaches to satisfy the billing and collection requirements set forth in the above-referenced decisions. For further information, contact Laura Martin of the CPUC's Energy Division by e-mail at [LRA@CPUC.CA.GOV](mailto:LRA@CPUC.CA.GOV) or by phone at (415) 703-2149.

1/10/05	A03-08-004	Pacific Gas and Electric Company, for adoption of its 2004 Energy Resource Recovery Account (ERRA) forecast revenue requirement, for review of contract administration, least cost dispatch and procurement activities during the record period January 1, 2003 through May 31, 2003, and for approval of its 2004 Ongoing Competition Transition Charges (CTC) revenue requirement and proposed rate design. [Includes Prepared Testimony, Volumes I and II (Redacted Versions)].
---------	------------	--

**Summary:** On January 5, 2005, Eric Eisenman, Chief of Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were Donna Barry, Team Lead, and Mark Huffman, Attorney, for PG&E. Eisenman requested that the Commission adopt ALJ Wong’s proposed decision (PD) and not make any of the changes to the PD requested by other parties. Huffman explained that the Commission previously determined the approach to calculate municipal departing load’s (MDL) ongoing Competition Transition Charges (CTC) and that this method should not be changed. Huffman added that the Commission concluded that the ongoing CTC should be based on the components specified in Public Utilities Code Section 367a. Barry explained that the total cost responsibility surcharge, including CTC, for nonexempt MDL could be in the range of 1.0 to

1.8 cents/kWh. Huffman stated that the PD's market benchmark determination is correct and that the PD correctly concludes that PG&E properly included 16 QF contracts as part of the CTC revenue requirement.
